The monograph *Yasmeen Lari: An Architect* was written on the occasion of an Honorary Degree in Architecture awarded to Yasmeen Lari by Politecnico di Milano's School of Architecture Urban Planning Construction Engineering.

The volume is the first organized collection of architect Yasmeen Lari's projects and written works. In these critical essays, the authors document and illustrate this Pakistani architect's career and the many striking actions that distinguish her work and civic engagement, and on whom Politecnico di Milano has conferred an Honorary Degree in Architecture.
