Dear Beatrice Gobbo,

On behalf of the Review Committee for the **Twentieth International Conference on Design Principles & Practices**, Feb 25, 2026 – Feb 27, 2026 at Sapienza University of Rome, Rome, Italy, this letter confirms your presentation proposal “Navigating As Learning. : Making Sense Of Systemic Complexity Through Interactive Visual Interfaces For Public Administrators” has been accepted. We believe that your presentation and participation in general discussions will make a significant contribution to the conference.

The annual conference is an integral component of the Design Principles and Practices Research Network. Founded in 2007, the Design Principles & Practices Research Network offers an interdisciplinary forum to explore the meaning and purpose of design. In professional and disciplinary terms, the network traverses a broad sweep to construct a trans-disciplinary dialogue, which encompasses a wide array of design paradigms and practices.
